

# The Legacy Project Mentor Guide

# **The Legacy Project**

The Legacy Project is a program at Advocates for Children CASA established in 2006. While many participating youth are or have been involved in the foster care system, the truancy system or the judicial system, system involvement is not an eligibility requirement for participation. Youth in the Legacy Project are 13 to 25 and need support in becoming self-sufficient young adults. The Legacy Project trains and supports volunteer Mentors who provide young adults with one-on-one mentoring, the acquisition of life skills, goal setting support and resource navigation within the community.

In addition to one-on-one mentoring, the Legacy Project facilitates quarterly Legacy Events where all teens served by Advocates for Children CASA can build connection and community with one another. Our program is designed to facilitate an Individual Learning Plan for youth with the help of a volunteer Mentor covering six key program areas: permanency and relationships, health and self-care, education and career, housing and money management, daily life skills and self-sufficiency and self-esteem and self-efficacy.

## **The Legacy Project Objective**

Our objective is to inspire confidence, motivation, and self-reliance to youth through the caring, supportive network of Legacy Mentors, peers, and trained staff.

## **The Role of a Volunteer Mentor**

The Legacy Mentor works closely with an assigned Legacy Youth to address his/her specific needs, assist with services and resources to benefit the youth, monitor and support the youth's progress towards identified goals, provide emotional support and encouragement to develop self-efficacy, and mentor and help youth with developing life skills to navigate adulthood.

All of this is accomplished by utilizing the expertise and assistance of your Case Coordinator and by following this Mentor Guide filled with topics to cover under each category, community resources to assist and activities and worksheets to help facilitate learning.

Statistics show that youth without at least three identified caring adults are less likely to be successful in adulthood. Thank you for your time and dedication to becoming a caring adult for a youth within The Legacy Project!

## Healthy Relationships:

### Act for Youth

Healthy relationships require communication and intimacy skills; they also rely on individual characteristics such as emotional self-regulation, social confidence, and empathy. Often youth programs do not focus explicitly on promoting healthy relationships, but they may include activities that practice pro-social behaviors and communication skills. Website provides resources that emphasize building healthy relationship skills.

# What Love Looks Like

## NOTES

- Objective:** To conceptualize what love looks like.
- Materials:**
- Large paper letters (L, O, V, E) (2' X 3' letters cut from poster board)
  - Magazines
  - Scissors, Markers, and Glue Sticks
- Step by Step:**
1. Divide students into four groups, and distribute one large paper letter (L, O, V, E) to each group.
  2. Distribute magazines, scissors, glue sticks and markers to each group.
  3. Have students cut images, pictures, and words from magazines that represent their perception of what love looks like.
  4. Instruct students to make a collage with their images, pictures, and words by gluing them to the paper letter.
  5. Choose one person from each letter group to present and explain their collage to the class.
  6. Discuss the content included in each collage, and identify the students' perceived characteristics of love.
  7. Have students spell the word LOVE with their letter collages, as they line up in front of the class.

1. Share the Greek etymology of the following 4 types of love:
  - Storgae: Family Love (a father's protection of his family; sibling bond)
  - Phileo: Friendship Love (enjoying time with a friend; caring about your community)
  - Eros: Object Love (love for your phone; love of brand names and clothing)
  - Agape: Unconditional Love (sincere committed love; selfless love in a marriage)
2. Ask students to compare their collage imagery with the above definitions, and categorize what type of love they defined.

# Making Healthy Decisions

### TEACHING TIP

Explain to the students that the Decision Making Model is tremendously helpful for evaluating options when there is time for reflection. Examples of such dilemmas might include where to go to college, what summer job to work, or what classes to sign up for. The input of a parent/trusted adult should also be utilized as part of the process.

Some situations, however, require snap decisions, such as when one is being pressured to have sex or use drugs or alcohol. In cases like these, the **STOP, THINK, CHOOSE with INTENT** model should be embraced.

- Objective:** To teach the seven steps of healthy decision making and to practice those skills in a challenging scenario.
- Materials:**
- *Worksheet: The Decision Making Model on pg. 345*
- Step by Step:**
1. Distribute *The Decision Making Model* worksheet.
  2. Read through each of the seven steps aloud.
  3. Ask the students if they have any questions about the steps. If so, clarify any of their uncertainties with further explanation.
  4. Divide the class up into four groups. Each group will use *The Decision Making Model* worksheet to process and determine the best response.
  5. Read the first sample scenario aloud to the first group, and have the students complete their worksheet based on the given situation and the application of the seven steps.
  6. Once completed, ask volunteers to share their answers on the worksheet, and what ultimate decision they made.
  7. Repeat three more times until each group has processed through a scenario and their conclusions have been discussed.
  8. Ask the students to think about how having a plan for processing helps one make better decisions, and encourage them to memorize the steps so they can make healthy decisions when they are in challenging situations.
  9. Ask students to write other scenarios where they could use this decision making model. If time permits, let them practice their skills.

### SAMPLE SCENARIOS

1. You are invited to a friend's house. When you arrive you realize his or her parents aren't home. One of your family rules is that you can't be at a friend's house without a parent present. Work through the seven steps to decide what you should do.
2. You have decided that you don't want to get involved with the drinking scene, but while attending a party, one of your friends approaches you with alcohol and begins to pressure you to drink.
3. Your cell phone chimes, telling you that you have a new text message. Upon reading it, you realize that it contains an inappropriate picture of someone in your class. Work through the seven steps to decide what you should do.
4. Your friend posts a rumor about you on his or her social media account. Work through the seven steps to decide what you should do.
5. Add your own scenario.

# The Decision Making Model

## The 7 Steps to Making Healthy Decisions and the 3 Steps to Making Quick, Healthy Decisions

<b>STOP</b>	<b>1) Identify the decision to be made.</b> What exactly are you trying to decide? <hr/>
	<b>2) Know yourself.</b> What are your strengths, weaknesses, skills, values and interests? <hr/>
<b>THINK</b>	<b>3) Identify options.</b> List the various choices so far. _____ <hr/>
	<b>4) Gather information and data.</b> What are some possible alternatives to the existing choices? <hr/>
	<b>5) Evaluate options that will solve the problem.</b> What are the pros, cons and risks of each alternative? <hr/>
<b>CHOOSE WITH INTENT</b>	<b>6) Select the best option.</b> If it's unclear, still, do you need more information? What else should you ask first? <hr/>
	<b>7) Develop a plan of action.</b> Have you decided? If so, how will you implement your decision? <hr/>

**Ask for help or support from someone you trust.**

# Decision Making Cards

## STOP

Have the ability to stop or control the situation. This could mean using a delay tactic, moving to a new place in the room/environment, or taking a quick moment to check for phone messages, text a friend or do something to change the dynamics of the situation.

## THINK

Have the ability to ask yourself questions such as, "What do I need to decide right now? What are my response options? What are the consequences to each choice?" Then work through the answers until you're clear about how you feel.

## CHOOSE WITH INTENT

Have the ability to make a decision with intent and choose actions that support your goals, dreams and life plan. Intention means I want to do this; no regrets. Decide, don't slide.

- Do not control the interview
- Do not bring up salary or benefits
- Do not act too serious or nervous
- Do not let your discouragement or disappointment show
- Do not look at your watch or the clock repeatedly

## Common Interview Questions

Here are some frequently asked questions and tips on answering them. Remember to be prepared!

Practice answering these questions with a friend prior to your interview.

1. **Tell me about yourself.** Answering this gives the interviewer insight into how you may fit into the organization. Do not talk about personal information. If you are unsure what information the interviewer is interested in, you could ask, "Are there any areas in particular you'd like to know about?"
2. **Briefly describe your professional experience and background.** The interviewer is trying to learn about who you are in the context of work.
3. **What is your biggest weakness?** Choose something that is not a major flaw or negative characteristic, you do not want to shock the interviewer or make them think you are not a good candidate for the job. Most importantly, do not say something negative about yourself and leave it at that, turn it into a positive! Describe how you were able to overcome this weakness and a positive way the situation turned out. Show that you have grown as a person, and how a slightly negative characteristic is now a positive attribute that you can bring to this new position. Whenever possible, use specific situations from your life to illustrate your point.
4. **What is your biggest strength?**
5. **How will your strengths help you do well with this company?** This is not an opportunity to brag. Instead, you need to describe why you are the best person for the job. Give a specific example of your strength, what it has helped you accomplish in past work roles, and how it will be beneficial to your performance if you get this job.

# Interviewing Skills

6. **Where do you hope to be five years from now?** Bottom line, the interviewer wants to know that you want to work for them. They do not want to hear that you plan on going to another company or field of work. Even if you do plan on keeping your options open, this may turn the interviewer off. Instead, focus your answer on new skills you hope to learn and master, and how you plan to use them in order to benefit the business' goals. Even if you want to get another job later on, do not say something like, *"I want to work here to gain experience to someday open my own business."*
7. **What is your greatest accomplishment?** Be sure to give specific examples from school and your community including how you overcame obstacles and of leadership opportunities you experienced. This gives the interviewer a better understanding of this accomplishment. If you just graduated from high school, college or tech school, describe an accomplishment from your school work, part-time job, internship or extra-curricular activities.
8. **Why do you want to work for this company?** You will always want to do research on the company before the interview. This is where your research on the company will be helpful. Perhaps they are innovative in a specific field and that is what makes you want to join the team? What are their goals, and how can your skills and past experiences help achieve them? Give specific reasons, don't speak in generalities.

*The following are some additional questions that might come up in an interview:*

9. Are you a nice person?
10. How would you describe yourself?
11. Describe a typical work week for you currently.
12. Describe your work style.
13. Do you work well with other people?
14. Do you take work home with you?
15. How many hours do you normally work?
16. How would you describe the pace at which you work?
17. How do you handle stress and pressure?
18. What motivates you?
19. Are you a self-motivator?
20. What are your salary expectations?
21. What do you find are the most difficult decisions to make?
22. Why did you choose to interview with this company?
23. What has been the greatest disappointment in your life?
24. What are you passionate about?
25. What are your pet peeves?
26. What do people most often criticize about you?
27. What is the worst thing that you have ever gotten away with?
28. When was the last time you were angry? What happened?
29. If you could relive the last 3 years of your life, what would you do differently?

# Interviewing Skills

30. If the people who know you were asked why you should be hired, what would they say?
31. Do you prefer to work independently or on a team?
32. Give some examples of teamwork.
33. What type of work environment do you prefer?
34. How do you evaluate success?
35. If you know your boss is 100% wrong about something, how would you handle it?
36. Describe a difficult work situation/project and how you overcame it.
37. Describe a time when your workload was heavy and how you handled it.
38. What interests you about this job?
39. Why do you want this job?
40. What applicable attributes/experience do you have?
41. Are you under or overqualified for this job?
42. What can you do for this company?
43. Why should we hire you?
44. Why are you the best person for the job?
45. What do you know about this company?
46. Why do you want to work here?
47. What challenges are you looking for in a position?
48. What can you contribute to this company?
49. What do you see yourself doing within the first 30 days on the job?
50. What would you do if you found out the company was doing something illegal?
51. Are you willing to travel?
52. What is good customer service?
53. How long do you expect to remain employed with this company?
54. Please rate me as an interviewer.
55. Is there anything I haven't told you about the job or company that you would like to know?

## Common Interview Questions: The Future

56. What are you looking for in your next job? What is important to you?
57. Where do you see yourself 5 years from now?
58. What are your goals for the next five years/ten years?
59. How do you plan to achieve those goals?
60. What are your salary requirements - both short-term and long-term?
61. What are your career goals?
62. What will you do if you don't get this position?
63. Where else are you interviewing?

# How to Keep a Job

**Once you get the job, the next task is to be sure you keep it.**

- 1. Be on time.** Be on time for work, returning from breaks, going to meetings, or turning in assignments.
- 2. Dress appropriately.** Always utilize good grooming habits.
- 3. Call and let the boss know if you will be late or absent.**
- 4. Give your best, finish assignments and meet or exceed expectations.**
- 5. Anticipate the needs of others.**
- 6. Have a positive attitude and “Can Do” spirit.**
- 7. Ask for help when needed.** Know your limitations.
- 8. Avoid backstabbing or office gossip.** Always be respectful.
- 9. Be a team player.** Look for opportunities to serve customers or co-workers.
- 10. Be a leader.** Look for opportunities to show that you can be trusted.
- 11. Avoid criticizing your boss or the company.** It is easy to find things wrong with others. It is much harder, but more rewarding, to find constructive ways to deal with problems. Employees who are known for their good attitude and helpful suggestions are the ones most often remembered during performance evaluation and raise review time.
- 12. Volunteer for trainings and new assignments.** Take a close look at people in your organization who are “moving up”. Chances are, they are the ones who have shown themselves willing to do undesirable assignments or take on new responsibilities.
- 13. Avoid the temptation to criticize** your company, co-workers, or customers on the Internet. Social networking sites offer many opportunities to share with the world, but what you place on the Internet is public forever.
- 14. Be a good team member.** Put the team and the company first.
- 15. Try to avoid ever saying “that’s not my job.”** Distinguish yourself. Pick out one or more things in your job to do better than anyone else. Become known as the “go-to” person for such things. That will help managers remember you favorably at times when you really need to be remembered.
